Emerald Conference Room, 1st Floor
11:30 a.m. to 3:30 p.m.

Lunch included

[CLICK HERE TO REGISTER](#)

Space is limited. Registration required.

Join California's State Veterinarian Dr. Annette Jones and Foster Farms' veterinarians and biosecurity experts Drs. Robert O'Connor and Charles Corsiglia to learn how you can help prevent the spread of Virulent Newcastle Disease.

Workshop topics include:

- Biosecurity at home and on the farm
- Bird health tips including symptoms to monitor
- Technical information
- Pathology updates and outbreak data
- UC Davis Poultry Extension online resources and outreach material for flockowners
- CAHFS—the state animal health lab system and its benefits

Poultry science specialist **Dr. Maurice Pitesky**, UC Davis Poultry Extension and veterinary pathologist **Dr. Asli Mete**, CAHFS-UC Davis will discuss the many resources available to small flockowners in keeping healthy flocks.
